Self Critique

Self Critique

What did we do well?

- **Planning, Extendable API, Connecting Elements of Site, Layout & Aesthetic**
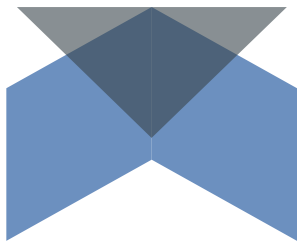

What did we learn?

- **Tools (D3, Mocha, Selenium, etc), Workflow for Website Development, Developer vs. Customer Roles**

What can we do better?

- **Refined User Experience, Polishment of Visuals, Media Integration, More Robust Search**

What puzzles us?

- **External Sources of Media, Balancing between Data and Design**

Other Critique

Critique of Let Me Help

Critique of Let Me Help

What did they do well?

- **Frontend "Advanced Options", Loading Screen, Hover Zoom, Cause Tags, Media Integration**

What did we learn from their Website?

- **Interactive Frontend, Large amount of Events per City**

What can they do better?

- **Large API calls, Visuals on Model Pages, Defaults, Starting View on Page Load**

What puzzles us about their Website?

- **Events that have passed, Restrictive Search, "Load More" instead of Paging**

Thank You!
